

- This page has been replaced -
- A Will Sample is No Longer Available -

Due to the rules applicable because of the **European Regulation 630/2012**, which are applicable to successions of people who died **after August 2015**, unfortunately a generic sample is **no longer available**.

Each case shall be reviewed based on the specific circumstances.

It is possible to have a foreign Will to regulate the succession also with respect to Italian assets.

Our service for foreign Will review includes as follows:

- 1) Foreign Will draft review (we receive the English draft from you);
- 2) Telephone consultation to discuss family circumstances, estate entity, testator(s) goals and expectations;
- 3) Written advice about possible suggested amendments and/or additions to the Will;
- 4) Written comments regarding use of your foreign Will in Italy, practical steps and formalities for the beneficiaries to claim the assets located in Italy.
